www.goswift.eu

GoSwift offers wide range of transport solutions for **planning and optimising** cargo movement.

Experience

GoSwift is **operating successfully** since 2011

6 branches in different countries

1.9 million vehicles served annually

13 Border crossing points:

2011 – Estonia 2013 – Lithuania

2012 – Russia 2015 – Finland

2023 – Ukraine

4 Ports:

Helsinki and HaminaKotka – **Finland**

Valencia – **Spain**

Tallinn – **Estonia**

5 Production sites – **Estonia**

1 TV Tower – **Estonia**

The Problem

The Problem

Lack of Communication

Border officials and drivers **lack a communication platform**, which results in time management difficulties.

Overcrowding, Queues on entry routes

Uncontrolled vehicle arrivals cause **queues at gates and congestion on roads**.

Wasted Resources

Chaotic organization leads to **inefficient use of resources**: land, staff and equipment.

Current
situation
in Estonia

How it works

1 Plan

2 Book

3 Go

The GoSwift Ecosystem

Electronic Border Queue Procedure

Border

Configures time slots rules

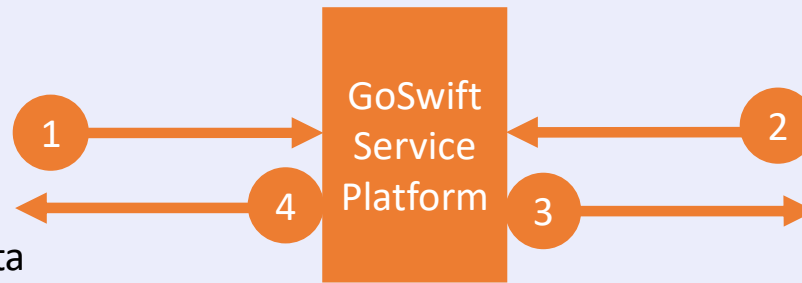

Receives notification which trucks will arrive, with all the data

Freight forwarder

Registers and select free time slot

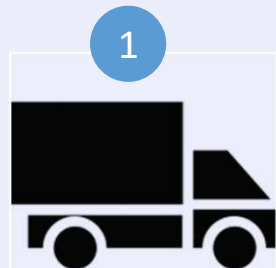

Receives time slot order confirmation

Time slot order

☰ Order details

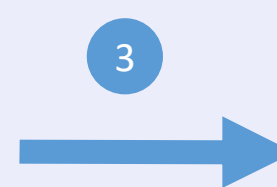

🕒 Time slot info

Waits for call (on the way, or at buffer area)

Driver is called

Drives to the buffer entrance

Vehicle is recognised

Next vehicle is called

6

Drive to border

Directed to the BCP
